

SIONYX

DIGITAL NIGHT VISION

AURORA-PRO

FULL COLOR NIGHT VISION

UPC

811251020064

SKU

C011300

The SIONYX Aurora PRO is the flagship full color digital night vision optic. The Pro is the latest development with both new sensor technology and enhanced optics giving the viewer the most advanced digital night vision capabilities. The Pro performs best in the darkest conditions. It's designed with extreme environments in mind and has all of the great recording and streaming functionality as the rest of the Aurora line. The Aurora Pro is a top choice for law enforcement agencies across the globe and has been leveraged for both surveillance and evidence gathering. If you're looking for the best in color night vision, that can see further into the darkness, the Aurora Pro is the night vision camera for you.

<1 MLX

MOONLESS STARLIGHT

Allows you to see well beyond human eyesight & pick up a man-sized target at 150 meters.

44° FIELD OF VIEW

Increases your field of view for situational awareness in your peripheral vision.

IP-67

Submersible to 3 ft for 30 minutes. You can safely use the Aurora Pro in inclement weather conditions.
